Nice speaking with you today.

Attached please find the comparison of S Korean and US MRLs/Tolerances for fipronil we discussed. This information is available through: <https://www.bryantchristie.com/BCGlobal-Subscriptions/Pesticide-MRLs>.

In addition, here is the FCID consumption calculator we also discussed: <http://fcid.foodrisk.org/>.

Don't hesitate to contact us if you have any questions.

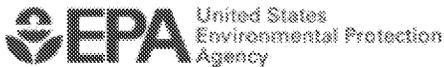

Thanks,

-Aaron

Subject: RE: follow up from today

Thanks. I've scheduled something from 3 to 4 pm today. Can you make that? I am thinking of reviewing our dietary exposure database (FCID) and GlobalMRL.com so that you are aware of both.

With respect to epi, I will see what I can do for us to sit down to talk, but it might not be until tomorrow. In the meantime, I've attached some slides with links to recent epi documents.

Subject: follow up from today

Hi David,

The other article I mentioned, on thyroid measurements, is attached (I highlighted parts that are relevant to my work). It has authors from industry and government, including the primary author of the comparative thyroid assay with fipronil. I found the background and CV stuff useful.

Any time tomorrow afternoon works for me! I learned today that I will need to be escorted from the lobby by an US EPA employee. Please let me know what time works for you all.

Thank you again for meeting with me, I appreciate you taking the time!

Leona Scanlan
